REQUEST FOR ADMITTANCE OF DECLARATION UNDER 37 C.F.R. § 1.195

Assistant Director for Patents
Washington, D.C. 20231
Attn: Box AF

Sir:

This paper is filed in response to the Advisory Action mailed November 16, 2001. A Notice of Appeal was filed on December 13, 2001. Thus, we believe no fees are due to make this response timely filed. If any fee is due, please charge our Deposit Account No. 19-0733.

Please admit the declaration under 37 C.F.R. §1.132.

Remarks

The declaration was not submitted earlier because applicants first became aware of the need for it upon reviewing the Advisory Action mailed November 13, 2001. In the Advisory Action the Patent Office clearly asserted its position that "in unpredictable fields, when the prior

art, in this case ex vivo gene therapy is not enabled across the board, the onus is on the applicants to support that which is claimed by analogous experimentation." (Paper 17, page 2, lines 9-11.)

The Declaration under Rule 132 provides evidence that the methods of the claimed invention are enabled for *in vivo* use. The Declaration demonstrates that antigen presenting cells (APCs) isolated from an animal that are transduced with a recombinant viral vector containing genes encoding a specific antigen, a detrimental product and truncated FADD are able to kill T cells that recognize the specific antigen in the animal.

Entry of the declaration under Rule 132 is respectfully requested.

Respectfully submitted,

Date: February 13, 2002
